PROFESSIONAL SUMMARY

Information Technology student with a strong interest in Artificial Intelligence, Machine Learning, and data analytics. Looking for a stimulating role where I can leverage my skills and knowledge to drive positive change and exceed organizational goals.

TECHNICAL SKILLS

- **Tech Stack** : Python, Java, MySQL
- **Cloud** : AWS (EC2, S3, RDS, Route 53)
- **Core Concepts** : APIs, Object-Oriented Programming

EXPERIENCE

Software Development Intern — APSSDC Summer Internship

Developed an AI-powered web application for crop disease detection and market analysis using Deep Learning. Integrated machine learning models with a Flask backend, built responsive user interfaces, and deployed the application on AWS Cloud.

Technologies: Python, Flask, TensorFlow/Keras, HTML, CSS, JavaScript, AWS EC2, Git, GitHub

PROJECTS

Kisan Sahayak (Smart Agriculture App)

Developed an AI-powered Flutter application for plant disease detection using Gemini AI and an offline ML model, providing organic treatment recommendations, multilingual Text-to-Speech support (10 Indian languages), and real-time weather updates for farmers.

Technology / Tools : Flutter, Dart, Gemini API, Weather API, Android Studio

Feed Forward (AI Diet Planner & Food Bank Platform)

Built a full-stack web application that provides AI-generated diet plans, personalized workout recommendations, and a food donation platform to reduce food waste. Integrated an AI chatbot for nutrition guidance and implemented secure backend APIs with database management for user data.

Technology / Tools: HTML, CSS, JavaScript, Python, Flask, MySQL, Gemini AP
